

EUROMOD software v3.8.6

What's new?

With respect to the previous release (v.3.8.5), this software version includes the following updates/changes:

CORE SOFTWARE

- Improved error message for missing variables/constants
- Renamed IsNtoMChild to IsNtoMDepChild and keep IsNtoMChild as an alias
- Fix for allowing Extension in Add-ons that do not exist in Countries

APPLICATIONS

- Updated the HHoT files
- Minor aesthetic improvements in the Statistics Presenter and Macrovalidation
- Fixed a bug in In-depth fiscal settings when moving a row down in table 1.3
